It is desired that the certifi cate give the name of the examiner name of the emigrant, duration of de tention after exposure to the choler; port from which they shipped and port of entry. If the certificate appears so ficient, the holder will be allowed t pass; otherwise all such persons will be

held in quarantine.
The question of what littsburgh would do to protect Ohio while protec ing itself was taken up also at the con ference. The littsburgh authoritie propose to provide a floating hospital for cholera patients, but this brought forth a protest from the Ohio and West Virginia authorities on the ground that it would pollute the water supply of river towns. It was then agreed to establish an inspection hospital station ontside of the city limits, and, if money can be seenred, to provide such arrange

ncents as already made by Ohio. Dr. F. E.
